

It is my understanding that if you go forward with your expansion of the LPFM stations these stations would take priority over our current FM translator service. And this change would mean our family may lose our favorite radio station that we listen to K-LOVE FM 89.5. I request that you do NOT allow this to happen! Our family and many many youth which I work with weekly tune into this station to be built up in wholesome choices and be encouraged with positive programming and popular music that appeal to the youth and families. K-Loves satellite service was disrupted for several weeks about a month ago and everyone in our community was asking if I knew what the problem was. We were substituting other local stations but nothing compares to the quality that K-Love FM 89.5 provides and we suffered through until the corrections were made and we had the broadcast again. Several families were asking if additional financial support was what was needed. Our family financially supports this national FM translator service as we find it so valuable to our family and the quality so superior to other local area stations.

Again we request that you do NOT allow changes with the LPFM services to disrupt or change our current FM translator service!

Thank you!
